How to delete everything from your inbox, sent or any other folder

1. Left click on the folder from which you want to delete your emails.
2. Click on first mail you see
3. Press and hold Ctrl + Shift and then press letter A
4. On the upper side of the browser you will see notice “All search results selected, including those not yet loaded.”
5. Click on Delete (If you have many mails sometimes you need to repeat this step. Sometimes you need to wait more as well)
6. Now if your inbox, sent or any other folder is empty it means that all your mails are deleted but not permanently. They have been moved to the Trash folder.
7. Right click on the Trash folder and click on Empty Trash
